Nobert Kemboi

Aspiring Data Analyst Transforming Data into Actionable Insights

About Me

Hi, I'm Nobert Kemboi, an aspiring Data Analyst passionate about uncovering insights from data to drive business success in Kenya and beyond. I specialize in Python, SQL, and Tableau to create user-friendly visualizations, such as dashboards for e-commerce platforms. My leadership in community projects, like Rotaract Club, fuels my commitment to impactful, data-driven solutions.

Skills

- Data Analysis: Python, SQL, R
- Visualization: Tableau, Power BI
- Tools: Excel, Jupyter Notebook, Kaggle
- Collaboration: Presenting insights to diverse stakeholders

Projects

E-Commerce Sales Dashboard: Developed a Tableau dashboard analyzing sales trends to optimize inventory for a Kenyan online retailer. (Placeholder: Add your project details or GitHub link here.)
